

E-Sham 2015

Since ever, the 29" is the perfect offroad and trail bike; hydraulic disc brakes and 2x10 transmission.

Updated geometry for a more relaxed handling. Thanks to its geometry, it keeps the speed and the handle on quick rhythm changes. The frame is light; only 1690 made of aluminum alloy 6061.

Equiped with the most futuristic pedelec-system you will reach your targets in less time and using less body energy.
